WORK EXPERIENCE

Independent Contracting

Perth, Australia | Remote

Contract Software Developer (Full Stack)

Oct 2025 – Present

- Designed, built, and maintained full-stack software solutions serving hundreds of active users across Australia's eastern states.
- Delivered production-grade systems across frontend, backend, and database layers.
- Worked directly with clients to scope requirements, iterate on features, and deploy updates to live environments.
- Managed deployments, reliability, and ongoing improvements for actively used applications.

Aquinas College WA

Perth, Western Australia

Casual ICT Helpdesk & AV Assistant

Mar 2025 – Present

- Provided ICT and audiovisual support to staff and students.
- Assisted with troubleshooting hardware, software, and AV systems.
- Supported day-to-day technology operations across the campus.

Lightbulb Skills

Perth, Western Australia

Junior Software Developer

Oct 2024 – Dec 2025

- Developed and maintained a full-stack CRM system using Next.js, React, and Supabase.
- Streamlined customer relationship management processes for the organisation.
- Applied modern web development practices to support a community-focused business.

Global College Australasia

Perth, Western Australia

Information Technology Intern

Dec 2023 – Apr 2024

- Provided IT helpdesk support to staff and students.
- Troubleshoot hardware and software issues across multiple systems.
- Assisted with device management, system setup, and software updates.
- Strengthened communication skills by supporting users with varied technical ability.
- Gained practical experience in IT support processes and system diagnostics.

EDUCATION

Curtin University

Perth, Western Australia

Bachelor of Science & Engineering in Computer Science & Mechatronics Engineering

Feb 2025 – Oct 2030

- 7.5 / 10 GPA
- Dean's List

Aquinas College

Perth, Western Australia

Diploma

Feb 2016 – Oct 2024

- Competitive Rower
- Valedictory Dinner Speech 'Day Boy' representative

LEADERSHIP AND ACTIVITIES

Hack48

Sydney, New South Wales, Australia

Sponsored Participant

Dec 2025 – Dec 2025

- Sponsored to participate in Hack48, a competitive 48-hour hackathon bringing together top student builders from Australia and abroad.
- Designed and built a system to convert written materials into Braille for visually impaired users.
- Focused on accessibility, inclusive design, and rapid prototyping within a 48-hour timeframe.

Hack Club Neighbourhood

San Francisco, California, United States

Sponsored Participant

May 2025 – Jun 2025

- Sponsored for an international Hack Club program focused on building and shipping independent projects.
- Worked alongside global peers in a high-intensity, startup-style environment.
- Competed in the UC Berkeley AI Hackathon.

Curtin Computer Science Students Association (ComSSA) <i>Sub-Committee Member</i> - Primarily contributed to the Tech Team. - Assisted with technical initiatives and supported event activities.	Perth, Western Australia, Australia Mar 2025 – Sep 2025
---	---

Curtin University Hackathon <i>Participant Winner</i> Awarded “Most Innovative” for developing a novel technical solution under time constraints.	Perth, Western Australia, Australia Dec 2024 – Dec 2024
--	---

PROJECTS

Still <i>Open Source</i> - Designing and developing a Rust-based universal package manager focused on performance, determinism, and cross-platform support (macOS, Linux, Windows). - Combines package management, version management, task running, and environment configuration into a single cohesive CLI tool. - Implements TOML-based specifications with support for conditional logic, platform-aware builds, and conversion from existing Homebrew formulae. - Prioritises fast execution, small binary size, and a clean developer experience compared to traditional tools like Homebrew and mise. - Built with extensibility in mind, enabling future support for TUIs, dotfile management, and interoperability with other package managers.	Dec 2024 – Present
--	--------------------

Personal Website <i>Open Source</i> - Designed and built a personal portfolio and writing platform to showcase projects, technical work, and professional experience. - Developed with a strong focus on performance, visual polish, and clarity, incorporating dynamic visuals and subtle motion effects. - Serves as a central hub for open-source projects, experiments, blog-style posts, and long-form technical writing. - Emphasises a clean, modern aesthetic while maintaining fast load times and accessibility across devices. - Used as a living portfolio to iterate on design ideas, document learning, and present work to recruiters, collaborators, and startup programs.	Aug 2024 – Present
---	--------------------

crib. <i>Open Source</i> - Designed and built a full-stack personal and shared task management application focused on housemates and small groups. - Developed using modern web technologies including Svelte 5 (runes), SvelteKit, PostgreSQL, and real-time data synchronisation. - Enables users to manage shared responsibilities, vote on issues, raise concerns, schedule meetings, and track personal tasks alongside group tasks. - Emphasises simplicity and usability, positioning the app as a lightweight alternative to complex tools like Notion or ClickUp. - Architected with security in mind, including authenticated real-time updates and server-side event relays to protect infrastructure keys.	Apr 2025 – Present
---	--------------------

HONORS AND AWARDS

Most Innovative Award Issued by <i>Curtin University/ComSSA Hackathon</i>	Perth, Western Australia Dec 2024
Charlie Bell Scholarship Issued by <i>Ronald McDonald House Charities WA</i>	Perth, Western Australia Dec 2024
Technical Resources Scholarship Issued by <i>Technical Recources Pty Ltd</i>	Perth, Western Australia Dec 2024
Year 11 & 12 Computer Science ATAR Dux Award Issued by <i>Aquinas College WA</i>	Perth, Western Australia Oct 2024

SKILLS, LANGUAGES, INTERESTS

- Soft Skills:** Public Speaking, Communication, Critical Thinking, Leadership
- Programming:** Rust, Python, React, TypeScript, Bash
- Web Development:** Svelte & SvelteKit, React, Next.js, Tailwind CSS, Astro
- Infrastructure:** PostgreSQL, Drizzle ORM, Docker, Nginx, GraphQL
