

AUSTIN SCOTT DELIC

Software Engineer / Systems Programmer

Perth, Western Australia

austin@austindelic.com ♦ (+61) 402 919 111 ♦ austindelic.com ♦ linkedin.com/in/austindelic ♦ github.com/austindelic

SKILLS, LANGUAGES, INTERESTS

- **Embedded & Systems:** ARM Cortex-M (RP2350, Raspberry Pi Pico 2), I2C / SPI, no_std Rust, OLED Drivers, Interrupts / Timers, Linux, Docker
- **Languages:** C / C++, Rust, Python, Go, TypeScript / JavaScript, Kotlin, SQL, Bash
- **Tools:** Git, Debugging workflows
- **Web & Frontend:** React & Next.js, Svelte & SvelteKit, Tailwind CSS, Astro
- **Databases & Infra:** PostgreSQL, Drizzle ORM, GraphQL, Nginx
- **Soft Skills:** Leadership, Critical Thinking, Communication, Public Speaking

PROJECTS

Embedded Firmware Calculator (ARM Microcontroller)

Personal Project

Jan 2025 – Jun 2025

- Developed embedded bare-metal firmware in C for ARM Cortex-M (RP2350, Raspberry Pi Pico 2).
- Managed memory and peripheral I/O without OS support; worked under strict embedded resource constraints (memory, timing).
- Implemented interrupt-driven and timer-based execution.
- Implemented I2C and SPI drivers at register level.
- Performed hardware bring-up and peripheral validation.
- Debugged hardware-software integration issues under real-time constraints.
- Integrated OLED display via register-level driver control.
- Re-architected firmware in Rust (no_std embedded environment) for memory safety in embedded systems.

Still

Open Source

Dec 2024 – Present

- Engineered a Rust-based systems CLI for deterministic dependency resolution across macOS, Linux, and Windows.
- Designed a custom TOML spec with conditional logic and platform-aware build graphs; implemented a dependency resolver producing reproducible output across host architectures.

crib.

Open Source

Apr 2025 – Present

- Built a real-time collaborative task manager with live synchronisation via server-sent events, backed by SvelteKit and PostgreSQL.

WORK EXPERIENCE

AITAI - AI Institute

Perth, Western Australia

LaunchLAB AI Cohort One '26

Mar 2026 – Present

- Selected for Cohort One of LaunchLAB AI '26, a competitive AI product accelerator run by the AI Institute of Australia.
- Building AI-native products with ML model integration and real-time on-device inference pipelines under structured industry mentorship.

Scrypt Ventures

Remote

Junior Software Engineer

Mar 2026 – Present

- Shipping production features across a distributed full-stack system at a pharmaceutical software venture.
- Contributing to system design, code review, and deployment pipeline decisions alongside senior engineers.

Independent Contracting

Perth, Western Australia

Software Engineer

Jan 2026 – Mar 2026

- Architected and shipped full-stack applications serving hundreds of active users, owning system design through to production deployment.
- Operated as sole engineer across architecture, implementation, deployment, and post-launch reliability.

Aquinas College WA

Perth, Western Australia

Casual ICT Helpdesk & AV Assistant

Mar 2025 – Mar 2026

- Diagnosed and resolved hardware, networking, and AV system failures across a large campus, maintaining uptime for 1,500+ students and staff.

- Maintained computer hardware, networking infrastructure, and AV systems supporting daily operations.

Lightbulb Skills	Perth, Western Australia
<i>Junior Software Engineer</i>	Oct 2024 – Dec 2025
• Architected and maintained a production CRM built on Next.js, React, and PostgreSQL, owning schema design through to UI delivery. • Shipped iterative improvements in a live production environment, managing schema migrations and feature releases independently.	

EDUCATION

Curtin University	Perth, Western Australia
<i>Computer Science Degree Major</i>	Feb 2026 – Oct 2029
Curtin University	Perth, Western Australia
<i>Mechatronic Engineering Honours and Computer Science Double Degree (BEng Hons/BSc)</i>	Feb 2025 – Oct 2025
• Completed first year of Mechatronic Engineering Honours before transferring to Computer Science; GPA 7.5 / 10.0 • Dean’s List – Letter of Commendation	
Aquinas College	Perth, Western Australia
<i>Western Australian Certificate of Education (WACE)</i>	Feb 2016 – Oct 2024
• Computer Science ATAR Dux	

HONORS AND AWARDS

3rd Place – VisagioX & Venture UWA Hackathon	Perth, Western Australia
<i>Issued by VisagioX & Venture UWA</i>	Apr 2026
• Designed and built an on-device AI system for real-time detection of harmful conversation patterns; all inference executed locally with zero data transmission, under strict latency and resource constraints.	
Sponsored Participant – Hack48	Sydney, New South Wales, Australia
<i>Issued by Hack48</i>	Dec 2025
• Competitively sponsored to attend Hack48, a 48-hour hackathon uniting top student builders across Australia and internationally. • Engineered a Braille conversion system to transform written content into tactile output for visually impaired users. • Completed Lyrathon in the same trip – two consecutive 48-hour hackathons back to back.	
Sponsored Participant – Hack Club Residency	San Francisco, California, United States
<i>Issued by Hack Club</i>	Jun 2025
• Sponsored for an international Hack Club residency in San Francisco, shipping independent projects alongside peers from across the world. • Competed in the UC Berkeley AI Hackathon (Jun–Jul 2025).	
Technical Resources Scholarship	Perth, Western Australia
<i>Issued by Technical Resources Pty Ltd</i>	Dec 2024
Charlie Bell Scholarship	Perth, Western Australia
<i>Issued by Ronald McDonald House Charities WA</i>	Dec 2024
Most Innovative – ComSSA Hackathon	Perth, Western Australia
<i>Issued by Curtin University / ComSSA</i>	Dec 2024
Computer Science ATAR Dux	Perth, Western Australia
<i>Issued by Aquinas College WA</i>	Oct 2024

LEADERSHIP AND ACTIVITIES

Curtin Computer Science Students Association (ComSSA)	Perth, Western Australia, Australia
<i>Sub-Committee Member</i>	Mar 2025 – Sep 2025
• Contributed to the Tech Team, building and maintaining tooling and infrastructure for the association’s events and online presence.
