

AUSTIN SCOTT DELIC

Software Engineer / Full Stack Developer

Perth, Western Australia

austin@austindelic.com ♦ (+61) 402 919 111 ♦ austindelic.com ♦ linkedin.com/in/austindelic ♦ github.com/austindelic

SKILLS, LANGUAGES, INTERESTS

- **Languages:** TypeScript / JavaScript, Kotlin, Python, Go, C / C++, Rust, SQL, Bash
- **Frontend:** React & Next.js, Svelte & SvelteKit, Tailwind CSS, Astro
- **Backend & Data:** PostgreSQL, Drizzle ORM, GraphQL, REST APIs
- **Infrastructure & Tooling:** Docker, Linux, Nginx, Git
- **Soft Skills:** Leadership, Critical Thinking, Communication, Public Speaking

WORK EXPERIENCE

AITAI - AI Institute

Perth, Western Australia

LaunchLAB AI Cohort One '26

Mar 2026 – Present

- Selected for Cohort One of LaunchLAB AI '26, a competitive AI product accelerator run by the AI Institute of Australia.
- Building AI-native products with ML model integration and real-time inference; actively applying AI tooling to accelerate development workflows.

Script Ventures

Remote

Junior Software Engineer

Mar 2026 – Present

- Shipping production features across a distributed full-stack system at a pharmaceutical software venture, working remotely with a distributed team.
- Contributing to system design, code review, and deployment pipeline decisions alongside senior engineers in a fast-paced environment.

Independent Contracting

Perth, Western Australia

Software Engineer

Jan 2026 – Mar 2026

- Architected and shipped full-stack applications serving hundreds of active users, owning product development end-to-end from UI through to backend and deployment.
- Operated the full delivery lifecycle — architecture, implementation, deployment, and post-launch reliability — as a solo engineer.

Aquinas College WA

Perth, Western Australia

Casual ICT Helpdesk & AV Assistant

Mar 2025 – Mar 2026

- Diagnosed and resolved hardware, networking, and systems failures across a large campus, maintaining uptime for 1,500+ students and staff.

Lightbulb Skills

Perth, Western Australia

Junior Software Engineer

Oct 2024 – Dec 2025

- Architected and maintained a production CRM built on Next.js, React, and PostgreSQL; owned schema design, feature development, and deployment end-to-end.
- Shipped iterative UI and backend improvements in a live production environment, managing data migrations and releases independently.

PROJECTS

crib.

Open Source

Apr 2025 – Present

- Built a full-stack collaborative task manager using Svelte 5 (runes), SvelteKit, and PostgreSQL; designed data schema, API layer, and UI end-to-end.
- Implemented real-time synchronisation across clients using server-sent events, leveraging fine-grained reactivity for a responsive, low-latency UI.

Still

Open Source

Dec 2024 – Present

- Engineered a Rust-based CLI tool targeting deterministic, cross-platform dependency resolution across macOS, Linux, and Windows.
- Designed a custom TOML specification with conditional logic and platform-aware build graphs; implemented a dependency resolver producing deterministic, reproducible output.
- Unified package management, version pinning, task execution, and environment configuration into a single composable binary.

EDUCATION

Curtin University <i>Computer Science Degree Major</i>	Perth, Western Australia Feb 2026 – Oct 2029
Curtin University <i>Mechatronic Engineering Honours and Computer Science Double Degree (BEng Hons/BSc)</i> - GPA 7.5 / 10.0 – transferred to Computer Science after first year - Dean's List – Letter of Commendation	Perth, Western Australia Feb 2025 – Oct 2025
Aquinas College <i>Western Australian Certificate of Education (WACE)</i> Computer Science ATAR Dux	Perth, Western Australia Feb 2016 – Oct 2024

HONORS AND AWARDS

3rd Place – VisagioX & Venture UWA Hackathon Issued by <i>VisagioX & Venture UWA</i> Built an on-device AI application detecting harmful conversation patterns in real time; leveraged AI tooling throughout development to accelerate the build.	Perth, Western Australia Apr 2026
Sponsored Participant – Hack48 Issued by <i>Hack48</i> - Competitively sponsored to attend Hack48, a 48-hour hackathon uniting top student builders across Australia and internationally. - Engineered a Braille conversion system to transform written content into tactile output for visually impaired users. - Completed Lyrathon in the same trip – two consecutive 48-hour hackathons back to back.	Sydney, New South Wales, Australia Dec 2025
Sponsored Participant – Hack Club Residency Issued by <i>Hack Club</i> - Sponsored for an international Hack Club residency in San Francisco, shipping independent projects alongside peers from across the world. - Competed in the UC Berkeley AI Hackathon (Jun–Jul 2025).	San Francisco, California, United States Jun 2025
Technical Resources Scholarship Issued by <i>Technical Resources Pty Ltd</i>	Perth, Western Australia Dec 2024
Charlie Bell Scholarship Issued by <i>Ronald McDonald House Charities WA</i>	Perth, Western Australia Dec 2024
Most Innovative – ComSSA Hackathon Issued by <i>Curtin University / ComSSA</i>	Perth, Western Australia Dec 2024
Computer Science ATAR Dux Issued by <i>Aquinas College WA</i>	Perth, Western Australia Oct 2024

LEADERSHIP AND ACTIVITIES

Curtin Computer Science Students Association (ComSSA) <i>Sub-Committee Member</i> Contributed to the Tech Team, building and maintaining tooling and infrastructure for the association's events and online presence.	Perth, Western Australia, Australia Mar 2025 – Sep 2025
