

AUSTIN SCOTT DELIC

Software Engineer (Backend & Systems)

Perth, Western Australia

austin@austindelic.com ♦ (+61) 402 919 111 ♦ austindelic.com ♦ linkedin.com/in/austindelic ♦ github.com/austindelic

SKILLS, LANGUAGES, INTERESTS

- **Languages:** Python, Go, TypeScript / JavaScript, Rust, C / C++, SQL, Bash, Kotlin
- **Backend Systems:** PostgreSQL, REST APIs, Distributed systems, Cloud architecture fundamentals, Service isolation
- **Frontend:** React & Next.js, Svelte & SvelteKit, Tailwind CSS, Astro
- **Infrastructure & Tooling:** AWS, Docker, Linux, Nginx, Git
- **Soft Skills:** Leadership, Critical Thinking, Communication, Public Speaking

WORK EXPERIENCE

AITAI - AI Institute

Perth, Western Australia

LaunchLAB AI Cohort One '26

Mar 2026 – Present

- Selected for Cohort One of LaunchLAB AI '26, a competitive AI product accelerator run by the AI Institute of Australia.
- Building AI-native products with ML model integration and real-time inference; actively applying AI tooling to accelerate development workflows.

Script Ventures

Remote

Junior Software Engineer

Mar 2026 – Present

- Shipping production features across a distributed full-stack system handling production workloads at a pharmaceutical software venture, collaborating with engineers in a distributed team environment.
- Developing backend services and contributing to system design, code review, and deployment pipeline decisions alongside senior engineers.

Independent Contracting

Perth, Western Australia

Software Engineer

Jan 2026 – Mar 2026

- Designed and shipped full-stack applications end-to-end, from UI through backend to deployment, serving hundreds of active users with full infrastructure ownership.
- Operated the full delivery lifecycle building and operating production systems, architecture, implementation, deployment, and post-launch reliability, as a solo engineer.

Lightbulb Skills

Perth, Western Australia

Junior Software Engineer

Oct 2024 – Dec 2025

- Architected and maintained a production CRM built on Next.js, React, and PostgreSQL; owned schema design, asynchronous backend processing, and deployment end-to-end.
- Shipped iterative frontend and backend improvements with a focus on reliability and maintainability, improving user-facing functionality and system performance in a live production environment.

PROJECTS

AI Legal Document Platform

Personal Project

Jun 2025 – Present

- Built a full-stack AI system for automated document classification in legal discovery, designed to support real-world document workflows for end users; architected service-oriented separation across frontend, API layer, and backend processing services.
- Developed asynchronous backend workers for high-volume document classification pipelines with concurrent processing.
- Provisioned and managed cloud infrastructure on AWS using Infrastructure-as-Code (OpenTofu), defining compute, storage, and data processing pipelines.

Tactify (AI Document Processing System)

Personal Project

Sep 2025 – Present

- Engineered a full-stack system for converting documents into audio and sensory outputs, with a Go backend handling AI processing pipelines optimised for performance, throughput, and low-latency processing.
- Designed and implemented typed APIs using Connect-trRPC to support frontend-backend integration.
- Built data pipelines for document ingestion, processing, and output transformation with scalable architecture for real-time generation.

- crib.**
Open Source

Apr 2025 – Present
- Built a full-stack collaborative task manager using Svelte 5 (runes), SvelteKit, and PostgreSQL; designed data schema, API layer, and UI end-to-end, focusing on real-time user interactions and responsive frontend behaviour.
 - Engineered real-time synchronisation across clients using server-sent events, leveraging fine-grained reactivity for a low-latency UI.

- Still**
Open Source

Dec 2024 – Present
- Engineered a Rust-based CLI tool targeting deterministic, cross-platform dependency resolution and environment reproducibility across macOS, Linux, and Windows.
 - Designed a custom TOML specification with conditional logic and platform-aware build graphs; implemented a dependency resolver producing deterministic, reproducible output.
 - Unified package management, version pinning, task execution, and environment configuration into a single composable binary.

EDUCATION

- Curtin University**
Computer Science Degree Major

Perth, Western Australia
Feb 2026 – Oct 2028
- Curtin University**
Mechatronic Engineering Honours and Computer Science Double Degree (BEng Hons/BSc)

Perth, Western Australia
Feb 2025 – Oct 2025
- GPA 7.5 / 10.0, transferred to Computer Science after first year
 - Dean’s List, Letter of Commendation
- Aquinas College**
Western Australian Certificate of Education (WACE)

Perth, Western Australia
Feb 2016 – Oct 2024
- Computer Science ATAR Dux

HONORS AND AWARDS

- 3rd Place, VisagioX & Venture UWA Hackathon**
Issued by *VisagioX & Venture UWA*

Perth, Western Australia
Apr 2026
- Built an on-device AI application detecting harmful conversation patterns in real time; leveraged AI tooling throughout development to accelerate the build.
- Sponsored Participant, Hack48**
Issued by *Hack48*

Sydney, New South Wales, Australia
Dec 2025
- Competitively sponsored to attend Hack48, a 48-hour hackathon uniting top student builders across Australia and internationally.
 - Engineered a Braille conversion system to transform written content into tactile output for visually impaired users.
 - Completed Lyrathon in the same trip, two consecutive 48-hour hackathons back to back.
- Sponsored Participant, Hack Club Residency**
Issued by *Hack Club*

San Francisco, California, United States
Jun 2025
- Sponsored for an international Hack Club residency in San Francisco, shipping independent projects alongside peers from across the world.
 - Competed in the UC Berkeley AI Hackathon (Jun–Jul 2025).
- Most Innovative, ComSSA Hackathon**
Issued by *Curtin University / ComSSA*

Perth, Western Australia
Dec 2024

LEADERSHIP AND ACTIVITIES

- Curtin Computer Science Students Association (ComSSA)**
Sub-Committee Member

Perth, Western Australia, Australia
Mar 2025 – Sep 2025
- Built and maintained tooling and infrastructure for the association’s events and online presence.
