

AUSTIN SCOTT DELIC

Software Engineer

Perth, Western Australia

austin@austindelic.com ♦ (+61) 402 919 111 ♦ austindelic.com ♦ linkedin.com/in/austindelic ♦ github.com/austindelic

SKILLS, LANGUAGES, INTERESTS

- **Languages:** Go, TypeScript / JavaScript, Python, Rust, C / C++, SQL, Bash
- **Backend and Systems:** Distributed systems, REST APIs, PostgreSQL, Asynchronous processing, Microservices, Connect-tRPC
- **Frontend:** React and Next.js, Svelte and SvelteKit, Tailwind CSS
- **Cloud and Infrastructure:** AWS (EC2, S3, RDS, Lambda), Docker, OpenTofu (IaC), Linux, Nginx, Git
- **Soft Skills:** Code Review, Technical Communication, Cross-functional Collaboration, Learning in Ambiguity

WORK EXPERIENCE

AITAI - AI Institute

Perth, Western Australia

LaunchLAB AI Cohort One '26

Mar 2026 – Present

- Selected for Cohort One of LaunchLAB AI '26, a competitive AI product accelerator run by the AI Institute of Australia.
- Building AI-native products with ML model integration and real-time inference pipelines, iterating rapidly from concept to shipped product with industry mentors.

Script Ventures

Remote

Junior Software Engineer

Mar 2026 – Present

- Engineering and shipping production features on a distributed pharmaceutical software system, participating in code review and design discussions with a remote team.
- Contributing to architecture decisions and deployment pipelines alongside senior engineers, incorporating feedback to iteratively improve code quality.

Independent Contracting

Perth, Western Australia

Software Engineer

Jan 2026 – Mar 2026

- Designed and shipped full-stack production systems end-to-end, serving hundreds of active users across Australia with full infrastructure ownership.
- Collaborated directly with clients to gather requirements, articulate technical tradeoffs, and ship reliable software on tight timelines.

Lightbulb Skills

Perth, Western Australia

Junior Software Engineer

Oct 2024 – Dec 2025

- Architected and maintained a production CRM on Next.js, React, and PostgreSQL; participated in code review cycles, shipping incremental improvements with feedback from senior engineers.
- Owned backend and frontend features from schema design through deployment, writing well-structured pull requests with test coverage in a live production environment.

PROJECTS

Still (Cross-Platform Package Manager)

Open Source

Dec 2024 – Present

- Building a Rust-based universal package manager targeting deterministic, cross-platform dependency resolution across macOS, Linux, and Windows; maintains a public open source repository with structured issue tracking and contribution workflow.
- Designed a custom TOML specification with conditional logic and platform-aware build graphs; implemented a dependency resolver with topological sort for reproducible, ordered execution.
- Built across multiple modules with clean separation of concerns, enabling independent testing and clear boundaries between parsing, resolution, and execution layers.

Real-Time Collaborative Task System

Open Source

Apr 2025 – Present

- Built a full-stack multi-tiered application using Svelte 5, SvelteKit, and PostgreSQL with server-sent events for real-time state synchronisation across clients.
- Designed normalised relational schema with referential integrity and concurrent write handling; implemented optimistic concurrency control to prevent data races under simultaneous updates.
- Shipped with comprehensive unit and integration tests, structured pull request workflow, and clear documentation for contributors.

Distributed Document Processing Pipeline

- Personal Project
- Jun 2025 – Present
- Built a distributed, multi-tiered backend service in Go with concurrent worker goroutines, fault-tolerant task queues, and typed API contracts using Connect-tRPC.
 - Provisioned and managed cloud infrastructure on AWS (EC2, S3, RDS) using OpenTofu; containerised services with Docker for reproducible, environment-consistent deployments.

Tactify (Accessible Document AI)

- Personal Project
- Sep 2025 – Present
- Engineered a high-throughput document transformation pipeline in Go handling unstructured inputs across multiple formats, with asynchronous processing and parallelised I/O-bound stages.
 - Applied systematic profiling and optimisation to reduce end-to-end latency, identifying and fixing bottlenecks across the processing pipeline.

EDUCATION

Curtin University <i>Bachelor of Science, Computer Science</i>	Perth, Western Australia Feb 2026 – Oct 2028
Curtin University <i>Mechatronic Engineering Honours and Computer Science Double Degree (BEng Hons/BSc)</i> • GPA 7.5 / 10.0, transferred to Computer Science after first year • Dean’s List, Letter of Commendation	Perth, Western Australia Feb 2025 – Oct 2025
Aquinas College <i>Western Australian Certificate of Education (WACE)</i> • Computer Science ATAR Dux	Perth, Western Australia Feb 2016 – Oct 2024

HONORS AND AWARDS

3rd Place, VisagioX & Venture UWA Hackathon Issued by <i>VisagioX & Venture UWA</i> • Built an on-device AI application detecting harmful conversation patterns in real time with no data leaving the device; led architecture and shipped the full system within 24 hours.	Perth, Western Australia Apr 2026
Sponsored Participant, Hack48 Issued by <i>Hack48</i> • Competitively sponsored to attend Hack48, a 48-hour hackathon uniting top student builders across Australia and internationally. • Engineered a Braille conversion system to transform written content into tactile output for visually impaired users.	Sydney, New South Wales, Australia Dec 2025
Sponsored Participant, Hack Club Residency Issued by <i>Hack Club</i> • Sponsored for an international Hack Club residency in San Francisco; competed in the UC Berkeley AI Hackathon (Jun, Jul 2025).	San Francisco, California, United States Jun 2025
Most Innovative, ComSSA Hackathon Issued by <i>Curtin University / ComSSA</i>	Perth, Western Australia Dec 2024

LEADERSHIP AND ACTIVITIES

Curtin Computer Science Students Association (ComSSA) <i>Sub-Committee Member</i> • Built and maintained tooling and infrastructure for the association’s events and online presence, collaborating with a multi-person committee.	Perth, Western Australia, Australia Mar 2025 – Sep 2025
