

# AUSTIN SCOTT DELIC

Software Engineer / Systems Programmer

Perth, Western Australia

austin@austindelic.com ♦ (+61) 402 919 111 ♦ austindelic.com ♦ linkedin.com/in/austindelic ♦ github.com/austindelic

## SKILLS, LANGUAGES, INTERESTS

---

- **Embedded & Systems:** ARM Cortex-M (RP2350, Raspberry Pi Pico 2), I2C / SPI, no\_std Rust, OLED Drivers, Interrupts / Timers, Linux, Docker
- **Languages:** C / C++, Rust, Python, Go, TypeScript / JavaScript, Kotlin, SQL, Bash
- **Tools:** Git, Debugging workflows
- **Web & Frontend:** React & Next.js, Svelte & SvelteKit, Tailwind CSS, Astro
- **Databases & Infra:** PostgreSQL, Drizzle ORM, GraphQL, Nginx
- **Soft Skills:** Leadership, Critical Thinking, Communication, Public Speaking

## PROJECTS

---

### Embedded Firmware Calculator (ARM Microcontroller)

Personal Project

Jan 2025 – Jun 2025

- Developed embedded bare-metal firmware in C for ARM Cortex-M (RP2350, Raspberry Pi Pico 2).
- Managed memory and peripheral I/O without OS support; worked under strict embedded resource constraints (memory, timing).
- Implemented interrupt-driven and timer-based execution.
- Implemented I2C and SPI drivers at register level.
- Performed hardware bring-up and peripheral validation.
- Debugged hardware-software integration issues under real-time constraints.
- Integrated OLED display via register-level driver control.
- Re-architected firmware in Rust (no\_std embedded environment) for memory safety in embedded systems.

### Still

Open Source

Dec 2024 – Present

- Engineered a Rust-based systems CLI for deterministic dependency resolution across macOS, Linux, and Windows.
- Designed a custom TOML spec with conditional logic and platform-aware build graphs; implemented a dependency resolver producing reproducible output across host architectures.

### crib.

Open Source

Apr 2025 – Present

- Built a real-time collaborative task manager with live synchronisation via server-sent events, backed by SvelteKit and PostgreSQL.

## WORK EXPERIENCE

---

### AITAI - AI Institute

Perth, Western Australia

LaunchLAB AI Cohort One '26

Mar 2026 – Present

- Selected for Cohort One of LaunchLAB AI '26, a competitive AI product accelerator run by the AI Institute of Australia.
- Building AI-native products with ML model integration and real-time on-device inference pipelines under structured industry mentorship.

### Scrypt Ventures

Remote

Junior Software Engineer

Mar 2026 – Present

- Shipping production features across a distributed full-stack system at a pharmaceutical software venture.
- Contributing to system design, code review, and deployment pipeline decisions alongside senior engineers.

### Independent Contracting

Perth, Western Australia

Software Engineer

Jan 2026 – Mar 2026

- Architected and shipped full-stack applications serving hundreds of active users, owning system design through to production deployment.
- Operated as sole engineer across architecture, implementation, deployment, and post-launch reliability.

### Aquinas College WA

Perth, Western Australia

Casual ICT Helpdesk & AV Assistant

Mar 2025 – Mar 2026

- Diagnosed and resolved hardware, networking, and AV system failures across a large campus, maintaining uptime for 1,500+ students and staff.

- Maintained computer hardware, networking infrastructure, and AV systems supporting daily operations.
